FULL STACK TECH LEAD

Description

Job Summary

Hiring organization

Blackwater Tech

Date posted

July 12, 2024

We are looking for an **.Net Tech Lead** having an experience of **2-3 years** that will be able to develop and support existing applications. The main scope of work will include everything from back-end to client-side code, using optimal and efficient technologies, frameworks, and patterns. Your primary responsibilities will be to design and develop these applications. Therefore, it's essential that you are skilled at problem solving, solution design, and high-quality coding. And also able to manage team members.

Responsibilities

Responsibilities

- Delivering a high-quality application
- Ensuring a required level of performance
- Writing test-backed server-side code
- Analyzing requirements and designing new functionality
- Supporting and fixing existing functionality
- Selecting and using the most appropriate and efficient technologies for a particular application
- Designing and building application layers
- Deploying Applications using Docker and Azure DevOps CI/CD Pipelines

Qualifications

Skills

- Strong understanding of Object-Oriented Programming
- Proficiency in **C#**
- Experience using **.NET 4.5+ / Core**
- Experience in developing **NET MVC /ASP.NET Core MVC** applications
- Experience in developing **Web API's** (with Swagger UI is an added advantage)
- Senior knowledge of **Entity Framework 6.* / EF Core**
- Proficient knowledge in **MSSQL / MySQL /Oracle / other RDBMS**
- Strong understanding of **CI/CD Pipelines** using Azure Devops and also using Azure Portal
- Database design including indexes and data integrity
- Good knowledge of SOLID principles
- Understanding of HTML, JS, and CSS
- Familiarity with the client side framework **jQuery/Ajax**

- Familiarity with **Xamarin Forms** Mobile App Development
- Familiarity with **Angular 6 or above**
