Description

Job Summary

Hiring organization

Blackwater Tech

Date posted

July 12, 2024

As a Junior Svelte JS Developer, you will be responsible for assisting in the development of web applications using the Svelte framework. You will work closely with our experienced development team to build user-friendly and high-performance web applications that meet our clients' needs.

Responsibilities

Responsibilities

- Collaborate with senior developers and project managers to understand project requirements and objectives.
- Assist in the design and implementation of web applications using Svelte JS.
- Write clean, maintainable, and efficient code.
- Debug and troubleshoot issues and implement fixes as necessary.
- Participate in code reviews to ensure code quality and adherence to coding standards.
- Stay updated on Svelte JS and web development trends to contribute to the team's knowledge base.
- Work on improving your skills and taking on new challenges.

Qualifications

Qualification

- Bachelor's degree in computer science (or equivalent experience).

Skills required

- Basic understanding of HTML, CSS, and JavaScript.
- Good knowledge on Svelte JS framework.
- Good knowledge on back-end API calls.
- Strong problem-solving skills and attention to detail.
- Good communication and teamwork skills.
- Eagerness to learn and adapt to new technologies.

Job Benefits
